

Solutions and Expertise in Mortgage and Lending Operations

BD Consulting Group and our experienced team of associates have worked in and supported the **mortgage and lending industry** in numerous capacities over the last several decades. Many of our teammates have managed the organizational units that comprise the lending function and many others have participated in **large-scale process improvement, consolidation, risk management and technology change** initiatives in support of our clients for many years.

Mortgage and Lending Operations

BD Consulting Group's combination of business and consulting experience has allowed the BD team to assist our clients on a number of key challenges facing the mortgage and lending industry, including:

- Addressing regulatory compliance standards and requirements
- Updating technology platforms and automating processes and controls
- Reducing costs to source, fulfill and service loans
- Consolidating lending organizations (internal and acquisition related)
- Identifying and executing business and operational transformation, control and cost reduction efforts
- Developing and implementing risk control frameworks to address business and regulatory challenges
- Executing business and integration programs to successfully implement integration strategies
- Assimilating and incorporating culture changes into business operations

Mortgage and Lending Operations Expertise

BDCG Consultants have supported Mortgage and Lending clients to implement many initiatives that address the challenges and changing landscape within the lending industry. These programs include:

- Process Engineering & Service Excellence Program Management (BPM)
- Cost Reduction Programs
- Merger & Acquisition Integrations
- Mortgage Operation Buildouts
- Risk and Control Frameworks for Lending Operations
- Automated Control Programs
- Risk Control Self Assessment (RSCA) Implementation
- Lending Operation Procedure Alignment to Regulatory Requirements
- Fair Lending Assessments
- Vendor RFP, Selection and Implementation
- Project Management and Subject Matter Expertise in all Lending Areas

BDCG brings objectivity to help guide your organization through the changes that can derail many initiatives. With targeted skill-sets and tools, BD Consulting is able to offer a cost effective, flexible approach ranging from strategy to experienced, feet-on-the-ground implementation.
