

### PROJECT MANAGEMENT SOLUTIONS

BD Consulting's long and successful history and relationships with both clients and best-in-class consultants brings an in-depth **knowledge** of our clients' industries, challenges and requirements. Our consultants have hands-on, qualified **experience** in relevant industry, line-of-business and functional roles. Project professionals within BD Consulting have earned **certification** in a number of project and process management methodologies including **Lean**, **Six Sigma**, and **AGILE**, as well as the Project Management Institute's (**PMI**) Project Management Professional (**PMP**) designation.

### **Success Factors**

Our team of experienced Project Professionals stand ready to provide **flexible**, **customized solutions** to support project/program success and further **enhance your organizations' project management capabilities**. Leveraging experience, best practices and PM methodologies, we focus on key success factors:

- Formulating a clear and shared vision and business case aligned to the business strategy
- Engaging leaders and stakeholders to gain support and commitment
- Managing and implementing project tasks and activities on time and within budget
- Applying special focus and planning to employee adoption including communication programs, training plans and performance recognition systems
- Supporting enablers and addressing gaps and issues head on every step of the way

### **Project Management Experience**

BDCG recognizes that every project involves investment and risk and that value and success are determined by sustained results. With decades of project and program success, BDCG provides:

- Professional Project Managers with expertise in financial services and other industries
- All levels of program and project managers adept at leading and managing multiple, integrated projects
- Process, Product and IT Expertise
- Consultants certified in Lean, Six Sigma, AGILE, Waterfall and PMP, and other process and project methodologies
- Ability to manage and support any size program or project initiative with experience in all phases of the project life cycle
- Project and Program Management methodologies, playbooks and best practices

Contact us to see how BDCG can make a real difference in how you deliver and sustain change in your organization
